

APPLICATION AREA

- Orange calibration hose is used in pipelining installations in the so-called open-end method to press an impregnated liner onto the walls of the pipe to be rehabilitated
- Installation maximum 45° bends
- Suitable for hot water or steam curing

TECHNICAL INFORMATION

- Tensile strength (seam): 82 N / mm²
- Tensile strength (material): 90 N / mm²
- Material: PVC
- Application area: DN 100 - 300 mm
- Installation pressure: max. 0,5 bar
- Heat resistance: max. 80 °C
- Weight: 443 g / m²
- Color: orange
- Pack size: 100 m / roll
